PROFILE

Motivated and detail-oriented Software Developer with 3+ years of experience building responsive, high performance web apps. Skilled in React JS, Angular, JavaScript, and Core PHP with hands-on work across UI development, REST APIs, and MySQL. I focus on clean code, accessibility, and shipping features that align with business goals.

SKILLS

HTML, CSS, JavaScript(ES6+), TypeScript, React JS, Angular, Node JS, Bootstrap, Ajax, jQuery, Tail Wind CSS, Core PHP, Node JS, MySQL, Responsive Web Design, Redux Toolkit, React Router, Context API, Third-party API, RESTful APIs, API Integration, MySQL Optimization, Problem Solving, Debugging, Cross-Browser Compatibility, AWS Lambda, S3Bucket, AI Integrations, Responsive Email Design, Multi-Factor Authenticator

WORK EXPERIENCE

Angular Developer

Rifluxyss Software Pvt, Ltd.

PalmAgent ONE

06/2022 - 09/2025

- Developed and maintained a large-scale market-based web platform using Angular, integrating the main PalmAgent system with 250+ dynamically generated market websites.
- Built dynamic, component-driven UI modules to load market-specific content, pricing, and configuration without code duplication.
- Implemented reusable services, API integration, and state management to efficiently handle data flow across multiple market versions.
- Optimized application performance by applying lazy loading, change detection strategies, and shared modules, improving load time and user experience across all markets.
- Collaborated with UX/UI teams to implement responsive, accessible, and SEO-friendly components.

React Developer

Rifluxyss Software Pvt, Ltd.

PalmAgent ONE

09/2023 - 09/2025

- Developed a Reps/Manager Dashboard using React.js to manage and monitor assigned user accounts efficiently.
- Implemented UI components to display the assigned user list with search, filter, and sorting functionalities for better data visibility.
- Added functionality for activating and deactivating user profiles, including status toggles and confirmation modals.
- Built reusable components using React Hooks (useState, useEffect) and optimized state handling for smooth UI updates.
- Integrated the dashboard with backend APIs to fetch user data and update user status in real-time.

PHP Developer

Rifluxyss Software Pvt, Ltd.

PalmAgent ONE

06/2022 - 09/2025

- Developed a full-featured Admin Dashboard using PHP (latest version) with multiple backend pages for managing users, content, settings, and system data.
- Designed and implemented secure and scalable API script files to support platform-wide operations.
- Created and documented RESTful APIs for cross-platform usage by iOS, Android, and Web Apps teams.
- Integrated database operations using MySQL, optimized queries, and ensured efficient CRUD operations across all modules.
- Ensured API security using token-based authentication, input validation, and error handling.
- Improved system performance by implementing caching, optimized SQL, and PHP performance improvements from the latest version.

EDUCATION

Bachelor of Computer Application

Jamal Mohammed College

Trichy, Tamil Nadu.

06/2016 - 05/2019

Master of Computer Application

EGS Pillay Engineering College

Nagapattinam, Tamil Nadu.

06/2019 - 05/2021

LANGUAGES

TAMIL, ENGLISH
